Blairmore.

DEATH OF ESTEEMED CITIZEN.

In the passing away of Mrs. Elizabeth Kidd on Saturday last, at the ripe old age of seventy-two years, Blairmore lost a pioneer and one of its most beloved and respected citizens.

Mrs. Kidd had been a resident of Blairmore for upwards of sixteen years. For a number of years she conducted a boarding house here under the title of "The Cement Lodge," where a real home was found by those away from home. Following the destruction of the boarding house by fire several years later, Mrs. Kidd took up residence in a little cottage on State Street, where she has since resided. Eleven years ago her husband was called to the Great Beyond, having also approached man's allotted span.

The late Mrs. Kidd came of some good old English stock. She was born at Brough, Westmoreland, England, on August 25th, 1852, and is survived by several brothers, sisters and cousins, most of whom are in the neighborhood of the eighties. Mrs. William Harrison, also residing in Blairmore, is a sister, younger by two years. She is also survived by two sons, John Anderson and Joseph Kidd; and three daughters, Mrs. Harry Moore, of Lethbridge, Mrs. R. W. Perry, of Blairmore, and Miss Emma Kidd, of the local telephone exchange staff; as well as a host of nephews, nieces and grandchildren. As a citizen, Mrs. Kidd was beloved by all. Her interest in all that meant for the betterment of the community and its people was manifested in a true Christian spirit. In the founding of the First Baptist church (now known as the Union church), Mrs. Kidd was actively interested, and since the Baptists became a part of the Union body she has ever main-

COUNCIL WILL CONSIDER SEVERAL IMPROVEMENTS

The regular meeting of the council on Monday night last had a full attendance of councillors and several important matters were discussed. Mr. Vissas, of the West Canadian was in attendance and produced plans of the proposed sidewalk between Mr. Green's corner and Capt. Brock's office. The blue print showed the estimated fills and grades necessary to build the sidewalk, which would be 1186 feet long and 8 feet wide. He explained to the council what part of the work the company would undertake and left it for them to discuss, and to be finally settled at a special meeting.

Alex. Morency was also in attendance and drew the council's attention to the danger surrounding the old brewery through bricks falling. The mayor replied that he had requested the owners several times to tear the remains down and had their promise that they would do so. "We will again approach them on the matter," he said.

Several accounts were passed for payment after being O.K'd by the various department heads. A price was submitted by the Blairmore Iron Works for an iron pipe fence for the top of the cement wall being built along Lyon Creek. The price was \$200 delivered, ready to be erected. On motion the offer was rejected, but the council practically decided that some kind of safety rail was necessary for the wall and the matter was tabled.

A communication was read from the Amputations Club asking the council's support in the matter of pensions for war widows and disabled soldiers. The secretary was instructed to write, pledging sympathy with their cause.

The question of road improvements was discussed at length, but was laid over to be finally settled at the special meeting.

The mayor brought up a case of the relief of a woman who was stranded here on her way from Fernie to Calgary. Her husband had deserted her and their baby at Fernie and she had only money enough to get this far. She was a former resident of Blairmore and had relatives in Calgary. The council granted the necessary funds to see her to Calgary. She also promised faithfully to return any money she received.

tained that interest in its welfare. Up to but a few weeks ago, Mrs. Kidd was in enjoyment of fairly good health and her demise was the direct result of pneumonia which followed a severe cold.

The community feels keenly the loss of such a citizen, as was clearly manifested by the large concourse of citizens that turned out on Monday afternoon to pay a last tribute of respect. A funeral service was conducted at the Union church by Rev. W. T. Young, who in the course of his remarks paid fitting tribute to the memory of the departed lady.

The remains were laid to rest beside those of her husband in the little Protestant cemetery.

D. H. Elton, Lethbridge solicitor, was a business visitor to this metropolis between trains Tuesday morning.

According to an announcement by Commissioner DuRoi, the serving of food in beer halls will not be permitted under the new Liquor Control Act.

CHRISTIE-GRANT COMPANY COMING TO BLAIRMORE

Throw Away The Crutches

On the eve of the presentation of the Budget at Ottawa each year the press of the country, and notably in the manufacturing cities of the East, is filled with predictions of dire disaster that will overtake the country if there is any lowering in Customs duties through which protection is afforded certain industries. This year was no exception to the rule, the manufacturers of agricultural implements and machinery being the most outspoken.

While it is only human nature that these manufacturers should fight to the last ditch to retain any and all advantages they enjoy, and which are calculated to add to the value of their plants and increase their profits, and admitting that they are only doing what any other class would do, it is in the national interest that such claims are advanced by them should be fully examined in the light of actual facts.

In a recent article in this column figures were given showing that in 1923 Canada imported goods from the United States to a value of over \$100,000,000, and iron and iron products to a value of \$152,851,000, both largely imported by manufacturers, whereas during the same period the value of agricultural implements and machinery imported from across the line only amounted to \$11,721,856.

The manufacturers feel aggrieved because these \$11,721,856 of imports and contents that if the tariff was only made high enough these goods would be shut out and replaced by Canadian-made articles. They blame the inadequacy of the tariff from their standpoint for this loss of business.

It is interesting, therefore, to note that in this same year Canada exported farm implements and machinery to a value of \$3,187,492. The Canadian manufacturers were able to sell to this extent in foreign markets in which they were not protected by tariffs, but in spite of tariffs levied against them and in open competition with the whole world including the United States.

In other words, Canada's imports of farm implements and machinery from the United States were only \$3,524,261 in excess of exports, which goes to show that the Canadian manufacturer of these implements has mighty little ground for complaint.

However, if these manufacturers have good reason to complain, as they claim they have, then what is to be said for the farmers of Canada in the light of the following figures? Imports of agricultural and vegetable products for the twelve months ended February last amounted to \$185,911,639, and of animal products \$162,279,013, a total of \$348,190,652. Why should the farmers of Canada make the importation of these farm products prohibitive, thereby securing the whole Canadian market to themselves even though by so doing the cost of living for every artisan and laborer in the Dominion was substantially increased?

But what would the manufacturer say to such a policy which would compel him to further increase the already high wages he is obliged to pay his employees?

The Canadian farmer, however, makes no such demand. All he asks is a free field, a free market, and no favors. He is prepared to face the competition of the whole world, relying on his own energy and the fertility of Canada's soil to win out. He is not asking for no artificial props to hold him up, but he does ask that the restraints, the handicaps, the shackles now imposed upon him be removed. With these out of the way he has no fear for his own future nor for the future of Canada.

Why cannot the Canadian manufacturer be as self-reliant as the Canadian farmer? Can he not, through the exercise of his own energy and initiative, the skill of Canadian artisans and workman whose services are so much in demand in the United States, and the great wealth of Canada's natural resources lying right at his door and only awaiting development, succeed equally as well in capturing his fair share, not only of the domestic trade of Canada, but of the trade of the entire world?

Of course the manufacturers could do it if they only would. The trouble with them is that they have so long relied upon crutches provided for them by the tariff that they are afraid to put their feet squarely on solid ground. They prefer to remain feeble cripples, and the very crutches upon which they rely for support are having the effect of making cripples of everybody else and rendering Canada weak and impotent where this Dominion should be sturdy and strong. We consider as a country to jump along, where we should not merely be walking but rapidly running at the head of the race.

The Shrine of St. Anne de Beaupre
An advance list of pilgrimages and tourist parties booked to date for the summer season at St. Anne de Beaupre shows that already forty pilgrimages have been arranged for June, July and August. Montreal, Toronto, Buffalo, Philadelphia, Chicago, New York and Boston are among the cities from which a large number of pilgrims are expected at the shrine. It is expected that over 200,000 people will visit the shrine this year.

While Rome burned Nero played the fiddle instead of the hose.

The path of ambition leads to many political graves.

"Tired and Worried Nervous and Despondent"

Mrs. M. Chevalier, Belle River, Ont., writes:

"For eight years I suffered from despondency and nervousness. Sometimes I could not sleep at night for worrying and the next day I would be so tired that my work was a burden to me. I began using Dr. Chase's Nerve Food and can say I am now entirely relieved of the nervousness from which I used to suffer, and things do not worry me as they used to."

"Dr. Chase's Nerve Food relieved me of eczema on my arms, which had bothered me for three years. My house is never without Dr. Chase's Medicine."

Dr. Chase's Nerve Food

After Many Years

Glasgow Courts Return a Cross to Parish Priests

After several years of litigation in Glasgow courts, a Byzantine cross, incriminated in jewels and valued at more than \$100,000, has been ordered to be returned to the parish priest of a church in the province of Aquila, Italy, to which it once belonged.

There were two claimants to the property, an Italian ice cream shop assistant of Glasgow named Attilio Franche, and the priest of the parish in Aquila. The cross disappeared from the church in 1918 and was not heard of until May, 1921, when Franche offered it for sale in Glasgow. Franche's story was that he found it in the ruins of his family castle after the earthquake at Messina. The court, however, did not see anything in common with the earthquake and the jeweled cross.

Joint Stiffness Goes, Swellings Disappear Pain Is Subdued

No Liniment Gives Such Universal Satisfaction As

NERVILINE

It is the great penetrating power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. It rubs into the very core of the pain, penetrates quickly and thoroughly, and brings a warm, comforting relief at once. Liniment compares in pain relieving power with Nerviline. For the minor pains and aches that arise in every family, Nerviline should always be kept handy on the shelf. Use it for Rheumatism, Lumbago, Neuritis and Colds. 35 cents at all dealers.

Heavy Movement of Wheat to West

An average of 90,000 bushels daily of wheat has been moving from Edmonton to Vancouver for shipment from that port. During a recent seven-day period 526 cars of grain, chiefly wheat, were examined and graded by the government inspectors at Edmonton.

PAINFUL SCIATICA AND NEURALGIA

Caused by Starved Nerves Due to Weak, Watery Blood

People think of neuralgia as a pain in the head or face, but neuralgia may affect any nerve of the body. The pain names are given to it when it affects certain nerves. Thus neuralgia of the sciatic nerve is called sciatica, and the character of the pain and the nature of the disease is the same, and the remedy to be effective is the same. The pain, whether it takes the form of sciatica or whether it affects the face and head, is caused by starved nerves. The blood, which normally carries nourishment to the nerves for some reason has failed to do so and the excruciating pain you feel is the cry of the starved nerves for food. The reason why the blood fails to properly nourish the nerves is usually because the blood itself is weak and thin.

When you build up the impoverished blood with Dr. Williams' Pink Pills, you are attacking sciatica, neuralgia and kindred diseases at the root. As proof of the value of Dr. Williams' Pink Pills in cases of this kind we give the statement of Mrs. Marion Bell, Port Eglon, Ont., who says: "Some years ago I was attacked with sciatica in my leg and hip. The pain was excruciating and finally I was forced to go to bed. Apparently the doctor could do me no good, as otherwise I found no relief. I had been in bed with the trouble for eight weeks when a lady who came to see me said that she had had a similar attack, and had only found relief through the use of Dr. Williams' Pink Pills. I decided to try this medicine, and before I had taken more than three boxes I found relief. I continued the use of the pills and under the treatment the pain left me. I was able to walk again, and have not since had the least return of the trouble. I feel that Dr. Williams' Pink Pills have been of such great benefit to me that I strongly urge similar sufferers to give them a fair trial."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Quebec Maple Sugar

The province of Quebec which produces more than half of the total maple crop of the world, is ready for a record production this season, according to the director of the maple sugar service bureau. The weather conditions last fall and the present both of which have been a great influence on the sugar crop, point to a better quality of sap and a bigger crop than last year.

Pure-Bred Cattle Sale

Two hundred head of cattle were sold at the nineteenth annual winter sale of the Saskatchewan Cattle Breeders' Association held at Regina recently. Over half of the pure-bred cattle sold were Shorthorns. Satisfactory prices were realized.

W. M. D. 1533

The Late Sir Edmund Walker

A Bank President, Unrivaled in Knowledge of Banking

In Sir Edmund Walker, Canada has lost one of her great citizens, the bank, a president unrivaled in his knowledge of banking; and the staff a friend. He was idealistic in temperament, yet possessed of great practical shrewdness. Although he was able for his breadth of vision, he never overlooked the importance of detail. Although he left school when only 13 years of age, yet through reading and study he developed into a man of great culture and of extensive and accurate knowledge. While he excelled as a banker, his abilities would have brought him success and distinction in almost any field he might have chosen. It was remarkable how, day by day, people in all walks of life would come to him for counsel and aid. Statesmen, educationalists, musicians, artists, business men and explorers were glad to take advantage of his shrewd common sense, extensive knowledge of affairs and organizing ability.

He had great faith in the staff, and believed in giving the branch managers the maximum of scope for their initiative; for he knew that it was only under responsibility that men develop. He avoided a dictatorial attitude in his relationship with his subordinates and insisted strongly that courtesy be shown by the staff in all internal and external intercourse, setting the example himself. He did not want the managers to be mere rubber stamps, working under instructions from the Head Office; he expected them to form their own opinions on the facts and to make recommendations to Head Office based on their own judgment. He always prided himself on the calibre of men that his system had developed, and the spirit of loyalty which distinguished this institution.—The Caduceus.

Many mothers can testify to the virtue of Mother Graves' Warm Eucalyptus, because they know from experience how useful it is.

Albertan Receives Knighthood

Prominent Alberta Man is Honored by Danish Government

For the second time a prominent Albertan has been honored with the Danish Order of Dannebrog. The latest is Dan. Morkebrag. Mr. Morkebrag has been a resident of Alberta for some years and was at one time a member of the legislature. The first man to receive the distinction from the Danish government was C. Marker, provincial dairy commissioner, and former Danish Consul in Alberta.

No need to suffer with corns, or to run the risk of perfring them. Remove them surely and painlessly with Holway's Corn Remover.

Saskatchewan Automobiles

Number of Licenses Issued Last Year Totaled 64,458

"During the year 1923, the number of automobile licenses issued in Saskatchewan," states Thomas M. Molloy, commissioner of the Saskatchewan Bureau of Labor and Industries, "were 64,466, made up as follows: Private autos, 60,931; trucks, 3,086; heavy autos, 1,225; motor cycles, 207. This being in proportion of one automobile to about 11.75 people out of the total population of the province of 757,510. Dealers' licenses and garage licenses were also issued to the number of 725 and 728, respectively. The following information has been obtained by the bureau: There is an average investment of \$27,230.25 by dealer agencies operating garages in connection with their business, making a total of \$19,630,143 of a capital investment. Service garages with an average investment of \$5,000 show a total investment of \$1,509,000. The average investment of some 360 dealers in accessories is \$3,000, with a total of \$1,089,000."

Some salmon, and likewise carp, have been known to live a century, while some eels have survived for 60 years.

Experience teaches people a lot of things they would rather not know.

Could Not Capture Canadian Deer

Animal Shipped to Dublin Zoo Eludes Keepers and Escapes

A large Canadian deer, which arrived at Dublin Zoo in a crate recently, jumped over two rings of high rail as soon as it was released, and settled down to graze in the grounds of the Viceregal Lodge.

Keepers tried with ropes and tried to lasso it. The deer jumped the high wall of the Viceregal Lodge, landed at high speed across Phoenix Park pursued by keepers in motor cars, and was last seen when the darkness fell at Castle Knock, several miles from the city, when it was still running in the direction of County Meath.

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, or convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

Money For Parks

The House of Commons, in committee of supply, passed two items for Dominion lands and parks, totalling \$551,000. A grant to the Canadian Forestry Association of \$4,000 and \$547,000 for surveys of water and power resources, including the hydro-metric survey, completed the vote. These made a total vote house of \$1,703,125.

Tells Just Why She Is So Thankful

Ontario Lady Found Relief in Dodd's Kidney Pills

She had suffered with bladder trouble for years, but Dodd's Kidney Pills quickly relieved her.

Bright, Ont.—(Special).—"I received your Dodd's Almanac and have been going to write to you ever since I am the mother of four children and have had very bad bladder trouble. I took different medicines and all the time it kept getting worse. At last my mother told me to try Dodd's Kidney Pills. I got two boxes and they have completely relieved me. I have never been so thankful for anything in my life, as I was for those pills." This statement is made by Mrs. Henry D. Christensen, well-known resident of this place.

Women's troubles, or nearly all of them, come from sick kidneys. Dodd's Kidney Pills will relieve kidney trouble, no matter where or in what form it is.

Sound kidneys mean pure blood. Pure blood means good health. Ask your neighbor if Dodd's Kidney Pills are not the best remedy for sick kidneys.

Warship Is Buried

With solemn ceremony the veteran warship Australia was sunk 20 miles off Sidney, in accordance with the naval programme under the Washington treaty. Last night hundreds of floral tributes from the populace, the warship was towed to the scuttling point by tugs accompanied by two Australian and five British cruisers with officials aboard. There her sea valves were opened and she slowly settled beneath the water while the cruisers fired salutes and airplanes circled overhead.

Farmers in practically any part of the United States can now receive by radio, reports of agricultural prices and movements at the leading market centres.

Minard's Liniment for Aches and Pains

Planes Will Avoid German Territory

Bavaria to be Spared Bother of Watching Foreign Aircraft

Bavaria is to be spared the bother of keeping an eye on cross-country foreign airplanes next summer, as the German Government has refused to enter into a convention which would permit aircraft of the Compagnie Franco-Roumaine to cross the state via Nuremberg on their way to Strasbourg and Prague.

It was on this route that several planes made forced landing last year, which led to reports that the Germans had discovered a wireless wave making it possible to bring down aircraft at will. A number of machines which came down on German soil were confiscated by the authorities on the ground that they were in the country illegally.

It has been decided that the mail and passenger planes of the company will proceed from Strasbourg via Basel, along the valley of the upper Rhine, to Lake Constance, and then via Innsbruck, Linz and Vienna, thus avoiding flying over German territory.

Ready-made Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, croup, bronchial troubles, whooping cough, asthma, burns, it is available for sale; it is unparagoned; it is safe; it is unparagoned; it is a testimonial other than the use, and that will satisfy anyone as to its effectiveness.

Ship Driven Without Fuel

Electric Generators Are Run By Motion of Waves

A new departure is a recent English invention of a vessel that uses the motion of the ocean instead of fuel to drive it. The ship is built in sections so that they rock up and down with the motion of the waves. This motion runs electric generators in each section. The current generated in this way is carried to the rear of the ship where it runs motors connected with the propellers, thereby propelling the ship. The electric batteries also collect the plus current so that it may be used when the sea is quiet. The gears are made so that both the up and down motion of the waves are used. The new ship will hardly be popular with those liable to seasickness.

Premier Magnanimous

Premier Ramsay MacDonald is drawing only one salary of 5,000 pounds for his dual position as first lord of the treasury and foreign secretary. The separate salary for each office is 5,000 pounds.

PATENT ATTORNEYS
ST. PAUL, MINN.

WOULD MAKE A FURTHER CUT IN THE TARIFF

Ottawa.—Immediate and substantial reduction in the tariff on the necessities of life, including food, clothing and building material, was the substance of an amendment to the budget resolutions moved in the House by J. S. Woodworth (Labor, Centre Winnipeg).

The Woodworth amendment, which was seconded by J. T. Shaw (Independent, West Calgary), is as follows:

"That, whilst the budget proposals would seem to indicate the recognition by the government of the necessity for a fiscal policy designed to encourage industries based upon the development of the natural resources of the country, and to afford some alleviation of the financial burden bearing upon the people;

"And, whereas the condition of such industries, and the position of consumers in general, is such as to demand relief;

"Therefore, be it resolved that the best interests of Canada will be served by an immediate and substantial reduction in the tariff on the necessities of life, including foodstuffs, clothing and building materials;

"And, further, that the loss of revenue, if any, which might result from such reduction in custom duties should be made good by:

"(a) The readjustment and extension of the income tax to bear more heavily on unearned incomes;

"(b) By a direct tax on unimproved land values, including all natural resources;

"(c) The institution of a graduated inheritance tax on larger estates."

The Speaker announced that the amendment could not be accepted as it originally drafted, because it contained proposals for taxation, and Mr. Woodworth agreed to have it re-drafted, so that the latter part of it would read as follows:

"And further, it is desired:

"(a) That the income tax should be so readjusted as to bear more heavily on unearned incomes;

"(b) That unimproved land values, including all natural resources, should not be exempt from taxation;

"(c) That a graduated inheritance tax on large estates should be considered."

Mr. Woodworth said that while the budget would be of benefit to the west, it did not go far enough. The budget had been apparently balanced at the heavy cost of reducing such expenditures as the department of health. The necessities of life were being taxed, with the result that unemployment and migration to the United States were still very grave problems.

BRITAIN READY FOR LIMITATION OF WAR MACHINES

London.—President Coolidge's speech in New York was very favorably received here both by the press and by the officials of the Labor Government. It is expected the Premier himself will take the earliest opportunity to proclaim his wholehearted support of the executive's proposed conference for further world disarmament.

When the time comes for formal invitations to a second world disarmament conference, the answer from Great Britain will be forthcoming as readily and as spontaneously as when the first call was issued by President Harding, according to observers in close touch with the MacDonald Government.

The limitation of air armadas would be Great Britain's special interest at such a conference, but it is stated that, when the issue is that of the destruction of war machines, Mr. MacDonald will be likely to adopt a ruthless policy and scrap airplanes, submarines, and soldiers as near the last man and war implement as possible.

The prospect of a disarmament conference and a consequent reduction in the heavy cost of armaments and air forces as soon as the reparations problem is settled, should cause the European countries to strive more strenuously to take full advantage of the new road to a final war settlement which was opened by the expert reports according to British officials. It pointed out here, that Premier MacDonald's prompt decision to abandon the Singapore naval base scheme is an indication of the support that would be given by the Government to plans for further disarmament.

W. N. U. 1523

To Test the Strength Of Draught Horses

Edmonton.—The Western Canada Association of Exhibitions probably will make arrangements for special classes on the western fair circuit this year, for testing the strength of draught horses. At the annual meeting of the association here it was announced by S. W. Johns, of Saskatoon, that the University of Saskatoon was constructing the necessary equipment for the use of all the fairs on the circuit. The testing of draught horses has been part of the programme of the larger fairs in the United States, and is said to be an interesting feature.

Would Hit Steamship Lines

Exclusion Bill Would Affect British Ships Bringing Russians to U.S.

Moscow.—If the present immigration bill before the American congress restricting Russia's quota to 200,000 annually, known as law, a number of British steamship companies specializing in the transportation of Russian settlers to the United States and Canada, will be forced to abandon their business here, it is declared.

The latest of these are the White Star and Canadian Pacific Companies, which have considerable investments in their Russian services. Last year they shipped many thousands of Russian and Ukrainian emigrants to the United States, while they now have on their waiting lists several thousands more, brought from the interior in the belief that the immigration bill would be defeated or modified.

The companies are faced, in the event of the bill's passage, with the task of returning their passengers to their homes at great expense.

New Refrigerating System

Process For Transportation of Perishable Goods Being Tested

Montreal.—A new refrigerating system which, it is claimed will revolutionize the system now in operation for the transportation of perishables, commodities was put through a test here. Carbon dioxide gas is used in place of thousands of pounds of ice and under it a carload of 12,000 pounds of fresh fish sent from Halifax was found after a week to be as fresh as when it left that port.

It is claimed that space, time and labor are saved by this new process and it is said that the Department of Marine and Fisheries is arranging for several different tests of the system.

Public Must Exercise Caution

Locomotive Drivers Not Liable For Accidents Says Judge

Toronto.—Contextualism has established that the driver of a locomotive is entitled to expect that the public travelling upon the highways will exercise due caution, remarked Mr. Justice Riddell in dismissing the action of Mrs. Clara Temple, claiming \$40,000 damages from the Canadian National Railways on account of the death of her husband, who was killed when the automobile in which he was riding was struck by a freight train at a level crossing.

Advisor to Prussian Ministry

Dr. Munk First Woman to Pass Juridical Examination

Berlin.—Dr. Marie Munk, the first woman to pass the juridical examination of Prussia, has been called to the Prussian ministry of justice as a scientific co-operator. At the request of the union of German women's clubs, Dr. Munk has prepared a report containing suggestions concerning changes in divorce laws and the respective rights of parents in the control of children.

Gives Broadcasting Ruling

Cincinnati.—The rendition of a song in a radio broadcasting studio is not a public performance, according to Judge Smith, U.S. District Court, United States district court, who dismissed a petition filed to halt the broadcasting of musical numbers without paying the holder of the copyright.

Appeal to Great Britain

London.—Abd El Krim, leader of the rebel forces, has appealed to Premier Ramsay MacDonald to invite Spain to cease war and has offered to send an ambassador to discuss peace conditions, providing the independence of the Rif territory is not compromised thereby.

May Cut Permanent Force

Ottawa.—Tails of Permanent Force will probably be cut as a result of the estimates for national defence having been reduced by nearly one half million dollars, according to J. G. Deane, deputy minister of national defence.

Spans World In Eighty Seconds

King's Message to Overseas Dominions Broadcasted From Wembley

Montreal.—The message of King George to the Overseas Dominions formally opening the British Empire Exhibition at Wembley, completed a circuit of the world in eighty seconds. King George sent this message to all overseas Dominions direct from Wembley: "I have this moment opened the British Empire Exhibition."

The message was forwarded first to Canada over the Imperial cable to Halifax, then over the land wires of the Canadian Pacific Telegraphs to Banfield Creek, B.C., and then over the cable to Australia, via Fanning Island, Cook, Fiji and Norfolk Island to Sydney, Australia. It was relayed to Durban, South Africa and Cape Town and from there to the Exhibition Grounds at Wembley via Azores. The commencement of the cable was received back in Wembley just as the message was completed in Halifax.

Claims Scarlet Fever Can Be Prevented

Discovery of New Toxin Makes Control of Disease Possible

Rochester.—A public demonstration of the new Dick test which it is claimed will revolutionize the treatment for scarlet fever, accomplishing the same effect with that disease as the Schick test has with diphtheria, was one of the outstanding events in the closing sessions of the annual meeting of the Medical Society of New York State here.

Dr. Ziegler explained that the Dick test was developed by Dr. George Dick and his wife, Dr. Gladys Dick, of Chicago.

"Inoculation is made through the arm as in the case of the Schick test," he said, "if the patient is susceptible to scarlet fever, reaction is shown the following day, the patient may then be made immune from the disease by the use of the toxin in increased quantities. This discovery will make possible the control of scarlet fever."

Average Farm Wage Increased

Bureau of Statistics Shows Slight Advance for 1923

Ottawa.—The average wages of farm help show a slight advance for 1923 compared with 1922, says the bureau of statistics. For Canada the average monthly wage of farm helpers during the summer season of 1923, including board, was \$2.75, as against \$2.65 in 1922; and for the United States, the average was \$3.00, as against \$2.90 in 1922. The average value of occupied farm lands, which includes both improved and unimproved land, together with dwelling houses, barns, stables and other farm buildings, is returned as \$27 an acre, as compared with 40 in 1922 and 1921.

Radio Is Expensive Publicity Feature

Not Likely to Affect Demand For Newspapers

New York.—No evidence that dissemination of news by radio would affect the publication or demand for newspapers was reported by a committee on radio at the annual convention of the American Newspaper Publishers' Association. The report adds: "Radio can still be regarded as an expensive publicity feature producing an intangible but undoubtedly valuable good will."

The report disclosed that there are only 45 newspapers operating broadcasting stations as compared with 100 in 1922.

Lloyd's Cancel Jewelry Contracts

Chicago.—Contracts for jewelry insurance running into millions of dollars have been cancelled by Lloyd's of London, according to the Chicago Tribune. Diamond losses mainly through theft have increased in the last year more than \$100,000, precipitating the action. Agents of the company are said to be instructed to take no more insurance on jewelry.

Souvenir of Editor President

New York.—The last stick of type set by President Harding was presented to the Associated Press by Secretary Wallace on behalf of W. E. Thompson, publisher of the Fairbanks, Alaska, news paper. The stick of type was set in the paper's composing room when President Harding was visiting Alaska shortly before his death.

Could Not Settle Boundary

London.—The conference here between representatives of Northern and Southern Ireland for adjustment of the boundary between Ulster and the Irish Free State broke up without result.

Heads British Miners

ARTHUR JAMES COOK

former barrister and preacher and later avowed Marxist and leader of the Welsh miners, who has been formally appointed as secretary of the powerful British Miners' Federation in succession to Frank Hodges, now civil lord of the admiralty in the MacDonald Government.

Save the Forest Week

Rules For Care With Fire in the Woods

1. Be sure your match is out before you throw it away.
2. Knock out your pipe ashes or throw your cigar or cigarette stump where there is nothing to catch fire.
3. Don't build a camp fire any larger than is absolutely necessary. Never leave it, even for a short time, without putting it out with water or earth.
4. Don't build a camp fire against a tree or a log. Build a small one where you can scrape away the needles, leaves or grass from all sides of it.
5. Don't build bonfires. The wind may rise at any time and start a fire which you cannot control.
6. If you discover a fire, put it out if possible. If you can't, inform the nearest Forest Ranger or Fire Warden as quickly as you possibly can.

Lake Level Decreasing

Mariners Anxious Over Drop in Water of Lake Superior

Port Arthur, Ont.—Mariners about the head of the lakes are concerning themselves over a drop of 26 inches in some two years in the water level of Lake Superior, and say that unless Superior "comes back" and the level increases instead of decreases year by year, commerce will suffer until such time as more dredging is done to permit of heavy draught bottoms carrying their full cargoes. If an old chart, said to be 100 years old is any criterion of the rapidity by which the water is lowering, the shore line in Port Arthur will be greatly changed in the next century. This chart shows the water in Superior to have lowered eight feet in the 100 years.

Loyalty of Jap Sailors

Pledge Immortal Patriotism While Awaiting Death in Submarine

London.—Trill was paid to 44 victims of the Sasebo submarine disaster, who, it has developed, wrote notes pledging immortal patriotism while awaiting death from suffocation. In connection with impressive funeral ceremonies the navy department made public to the nation letters and wills found in the navy submarine 43, which sank off Sasebo harbor on March 19. Typical of these phrases written by the trapped and smothering men were:

"Long live the empire."

"We die, but we guard the empire after death."

"In coming generations our spirits will serve the emperor."

Radio Fans Disappointed

King's Voice Did Not Carry Beyond British Isles

London.—The effort to have the voice of King George heard around the world as he delivered the speech in opening the Wembley exhibition failed of success, according to reports from radio enthusiasts throughout the Empire. Some ten millions of the King's subjects in the British Isles heard his voice, but it did not carry beyond the British Isles. The amateur fans in Canada, Africa, Australia and India listened vainly.

No Dividends For Two Years

Toronto.—G. T. Clarkson, liquidator of the Home Bank of Canada, stated in an interview that the next dividend to depositors in the defunct institution would not be paid for two years. The first and only dividend of 25 per cent was distributed shortly before Christmas.

Tokio Police Will Protect Americans

Tokio.—Reports on the immigration legislation of the United States, as it affects Japan, were submitted to a meeting of the Privy Council, and it is understood that the council generally endorsed the government's conduct. Extra precautions have been ordered by the police to protect the persons and property of United States residents of Tokio. Although some "patriots" are distributing handbills warning of the approaching Japanese-American war, thus far there have been no untoward incidents.

Veterans Lunch Protests

Saskatchewan Command Appeals Against Alleged Injustices of Pension Board

Regina.—Appealing to women's organizations to press the matter for support in their protest against alleged injustice on the part of the Board of Pension Commissioners of Canada, by failing to abide by decisions of appeal boards, the provincial command of the Great War Veterans' Association has published an eight-page booklet to be distributed broadcast over Saskatchewan.

The pamphlet reproduces editorial from leading Saskatchewan newspapers and from certain publications, all of which attack the attitude by the Pension Board. It cites specific cases of hardship, cases of delay and generally assails the Pension Board for various alleged sins of omission and commission. Ten thousand copies have been run off for distribution and leaders in every walk of life will be supplied with one. Mainly the distribution will be through local secretaries of G.W.V.A. units.

The publication also asks for an "easement" for soldier settlers, a readjustment of a sliding scale, the basis of the adjustment to be on the basis of the year the settler purchased his land and equipment. The pamphlet is entitled "Strangle."

Shortage of Farm Help

Estimated Eight Thousand Men Will Be Needed in Saskatchewan

Regina.—There is about a twenty-five per cent shortage of labor for seeding operations on the farms in Saskatchewan this spring. In other words, approximately 2,000 more men are required if every farmer who is looking for help is to be supplied, it was learned here.

While the Saskatchewan Employment Commission is now in session, it is not prepared to admit, others in close touch with the labor situation generally confirmed the information and it was stated that farmers are paying \$50 a month and board for experienced men. It is estimated that about 8,000 farm hands will be needed for spring work and that approximately 6,000 will be available.

New Rotary Governor

Successful Convention of Rotarians Held at Edmonton

Edmonton, Alta.—One of the most successful Rotary conventions ever held, was the unanimous vote of the Rotarians, who concluded a two days' convention here.

The outstanding event of the programme was the unanimous election of Frank C. Wiles, prominent barrister of Yorkton, Sask., a charter member and the first president of the Yorkton Rotary Club, as governor of district number four. The nomination was proposed by Gordon Hurst, of Winnipeg, and seconded by James Mould, president of the Edmonton Rotary Club.

The retiring governor is James W. Davidson, of Calgary.

Arrest Australian Labor Leaders

Sydney, Australia.—Six prominent labor leaders here were arrested on charges of conspiracy in connection with the prevention of vessels from proceeding to sea. The arrests were the outcome of the action of seamen and waterfront workers in boycotting a steamer at Port Lyttleton because members of the crew of another Commonwealth vessel the steamer were arrested recently for refusing to perform their duties while at sea.

Duel in Old Italy

Naples.—A duel with swords was fought here between Vincenzo Nitto, captain of the Italian army, and Guido Prati, a doctor. The doctor was wounded in the right arm. The duel was the outcome of an article published by Prati in a Fascist newspaper.

Educationalists at Calgary

Calgary, Alta.—Addresses by educational authorities in the province featured the session of the three-day convention of the Alberta Educational Association, which met here.

GRAIN INQUIRY HEARS TALK ON OCEANSHIPSMENTS

Port Arthur, Ont.—Problems of ocean transportation as they relate to transportation of Canadian grain were discussed before the Royal Grain Commission session here. Sir Halford Mackinder, chairman of the Imperial Shipping Committee of the Empire, addressed the commission at some length on the identical character of the investigation of his committee being conducted in Canada and those of the Royal Commission.

Sir Halford explained that Canada must take into consideration in all her internal water routes that the round trip cargo voyage is the economic measure excepted by the sea carriage. When the direct route is a cargo, then world conditions overhauling the purely local and international difficulties of trade. Ships go where the round trip cargo enables them to reach the largest return. Canada must remember that if she is to secure the lowest carriage rate by sea for her products, she must develop something more than an export business.

His committee was on this side to investigate two big problems affecting Canada and the United Kingdom. One was the discrimination of flour from the United States seaboard imposed by the Washington Government against Dominion products, and the other, the rates on insurance of vessels and cargoes applying on the St. Lawrence route, as compared with insurance from the United States seaboard. These two questions loom big in the United Kingdom as affecting not only Canadian traffic, but the food supply cost on the other side. His committee was here at the invitation of the Dominion Government.

His committee was on this side to investigate two big problems affecting Canada and the United Kingdom. One was the discrimination of flour from the United States seaboard imposed by the Washington Government against Dominion products, and the other, the rates on insurance of vessels and cargoes applying on the St. Lawrence route, as compared with insurance from the United States seaboard. These two questions loom big in the United Kingdom as affecting not only Canadian traffic, but the food supply cost on the other side. His committee was here at the invitation of the Dominion Government.

These two questions loom big in the United Kingdom as affecting not only Canadian traffic, but the food supply cost on the other side. His committee was here at the invitation of the Dominion Government.

Fair Managers Meet

Discuss Matters in Connection With West-Canada Exhibition

Edmonton.—Managers of the five principal exhibitions of Western Canada met in the exhibition offices in this city for a day's conference on matters of chief concern to the managerial and the exhibitors.

Those in attendance at the meeting were: D. T. Elderkin, Regina; J. E. Rette, Brandon; S. W. Johns, Saskatoon; E. L. Richardson, Calgary; and W. J. Stark, of Edmonton.

The managers reviewed stock classifications and agreed upon uniform policies in connection with livestock organizations and upon other matters of common interest relating to attractions, prize lists, etc. Another item dealt with was the appointment of race officials for the different races on western tracks in connection with the exhibitions.

Publicity For Alberta

Minister of Agriculture Will Make Tour of United Kingdom

Edmonton.—Hon. Geo. Hoadley, minister of agriculture, has left for England, where he will attend the British Empire Exposition as honorary commissioner for Alberta. He will go direct to Wembley, and after several weeks on duty at the big fair he will make a tour of the United Kingdom on a mission of publicity for Alberta and its emigration attractions.

A CLOSER CHECK UPON BANKING IS NOW ADVOCATED

Ottawa, Ont.—Disclosures made at Toronto by the liquidator of the Home Bank as to the camouflaged position of the institution are considered by William Irvine, M.P., and others who recently brought up the question in the House a good and serious case for their resolution. It calls for amendments to the Bank Act calculated to provide a closer check upon the banking institutions and safeguard against further failures.

A system of government inspection will be advocated by a number of the members, with the idea of confining it to the head office. Hereafter such a policy has always been opposed when the Bank Act came up for successful revision by the opposition, while not favoring complete inspection, has changed considerably both in Parliamentary and official circles. There now seems to be no question that, as suggested in the Irvine resolution, the present system of supervision should be replaced by a more effective one. In fact, the acceptance of that resolution by the government side is taken to assure, if not government supervision, at least some closer supervision. The exact form of it will be for the committee to recommend.

Local and General Items

For funeral flowers phone 212, Crows' Nest Pass Undertaking Co.

Handball promises to be a new pastime in Blairmore this year.

Work of cleaning up the Blairmore tourist campsite was commenced yesterday.

A USED PIANO, just like new. Easy terms can be arranged. Apply to Box E, Blairmore. MI-8

The church union bill passed the Nova Scotia house by a vote of 18 to 9.

Mr. and Mrs. Owen Morgan left by Monday night's train for Saunders Creek.

WANTED—Maternity Nurse now ready for engagement.—Apply Mrs. F. Short (residence opposite depot).

Mr. and Mrs. James Leigh were up from Cowley on Wednesday afternoon.

Snyder & Co., of Calgary, have secured the contract for the plumbing and heating for the new Coleman Grand Union hotel.

Thirty-three horses perished in a fire which destroyed the barn of B. A. Perkins & Son, near Lethbridge, on Saturday morning.

The lives of 114 miners were snuffed out by an explosion followed by fire, in a mine at Wheeling, West Virginia.

It has been repeatedly stated from the pulpits of the province that some of those in parliament are beyond the reach of prayer.

Rev. H. Peters, of Bellevue, addressed the Oddfellows and Rebekahs at Pincher Creek on Thursday night last, on the occasion of the 10th anniversary of Oddfellowship.

An effort is being made to have the Coleman Glee Society give a sacred concert in Blairmore on some Sunday evening in the very near future.

BRING A RAKE

A general invitation is extended by the Blairmore Board of Trade, to all interested, to come out on Wednesday afternoon next and join the clean-up bee on the tourist campsite. Bring a rake or an axe. Absentees will be noted.

Charley Cheeseman, Cardston, the big "cheese" of sport in Southern Alberta, has been elected vice-president of the Alberta Amateur Baseball Association for the season of 1924.

As a result of the defeat of his government by one vote, Premier Warrant has requested Sir William Allard, governor of Newfoundland, to dissolve the legislature, and writs are being issued for a general election to take place in May or June.

Work of tearing down the old Grant Union hotel at Coleman is progressing rapidly. The building has been purchased by J. Michalsky and is being removed to give place to the modern hotel structure to be erected by the Calgary Brewing Co.

A very pleasant evening was spent last Thursday in the local lodge hall, when the members of the Masonic and Eastern Star, and Oddfellows and Rebekahs gathered to bid farewell to Mr. and Mrs. David Martin and Mrs. Owen Morgan. Cards were indulged in for a time, after which a dainty supper was served. Mrs. Martin was then presented with a fine vanity purse by the Eastern Star, and Mrs. Morgan a ring from the Star and a purse from the Rebekahs. Dancing for a couple of hours brought the evening to a close.

Harold Scott, former resident here, is renewing acquaintances this week. Pincher Creek's public school celebrated its fortieth birthday on Monday last.

Superintendent Jamieson, of the C. P. R., accompanied by Engineer Falkner, are spending today in Blairmore and district.

Rev. Father Cosman is spending the week in Spokane.

A baby girl arrived to Mr. and Mrs. R. Miller at Lindsay, Ontario, yesterday, April 30th.

About a dozen extra tourist camps are being established between Crows' Nest and Kootenay Landing.

S. Fraser and family motored to Blairmore from Pincher Creek on Sunday last.

Mr. and Mrs. Stanley were up from Macleod on Sunday, visiting local friends.

J. S. McEachern, representing Carlyle Bros' Crystal Dairy, Lethbridge, was in town on Tuesday.

Mr. H. E. Tustian has moved his family to Orion, Alberta, where he has been appointed C.P.R. station agent to succeed Mr. Tremouth.

Joseph Meighen, father of Arthur Meighen, former premier of Canada, died at Ottawa on Saturday night, aged 78 years.

Miss Daisy Aitkin, who had been visiting here with her sister, Mrs. (Rev.) W. T. Young, returned to Milllet last week.

Mr. and Mrs. Jette have moved into the residence recently purchased from Mr. Owen Morgan, on Ninth Avenue.

James B. McLaughlin has assumed the editorship of the Maritime Labor Herald. He is said to have developed into a full-fledged Communist, having joined that party recently in Toronto.

A picture in a recent issue of The Lethbridge Herald depicts William Booth, the founder of the Salvation Army as being as far out of our sight as we really thought he was, and the picture to us appears anything but heavenlike.

Day by day the new Alberta Liquor Control Act is offering better opportunities for bootleggers in the province. The announced average price of \$6.00 for whisky, coupled with the permit fee, assures a market for the bootleg stuff.

The Coleman band gave an open-air concert at the Victoria handstand on Sunday afternoon. The programme lasted about two hours and was fully appreciated by the large number of citizens who turned out. We understand that the band has volunteered to appear again.

Ex-Premier Squires, of Newfoundland, being interviewed at Halifax, Montreal and Toronto denies being implicated in the scandals found under the Walker Report. At Montreal he claimed that he would again lead a party and resign his election. He also said that at the opening of the legislature he would ask for the Walker Report to be tabled with the assertion that there would be no recourse to the courts, as the commission was illegal and the public Enquiries Act defective.

SIX ROOMED HOUSE TO RENT—Apply A. J. Smith, Blairmore.

HOUSE MAID WANTED—Apply to Mrs. A. R. Granger, West Blairmore.

WANTED—Girl for general housework. Apply to Mrs. J. B. Wilson, West Blairmore.

Warren T. McCray, retired governor of Indiana, has been sentenced to a ten-year prison term for using the mails to defraud. In addition he was fined \$10,000.

The other day we overheard a party remark that Blairmore was not the best police, but the most police town of its size in the British Empire. And the display of uniforms and side-arms that greets the strange passenger is not a booster for our modern civilization.

F. B. Lawson, former editor of the District Ledger at Fernie and The Searchlight, Calgary, recently became the victim of the K. K. K. in Arkansas, when he was taken from his home at night, tied to a post and horsewhipped. Lawson has entered action against the Klan for \$50,000 damages. Lawson started his newspaper career with the Halifax Herald.

I. O. D. E. TEA

A tea will be given at the teachers' residence on Saturday, from 3 to 6 p.m., under the auspices of Captain David Fraser, Chapter of the I. O. D. E.

A son was born to Mr. and Mrs. Joseph Kneip at Frank on March 28.

A. E. Knowles is erecting a garage near the Salvation Army barracks at Coleman.

Where is the glory in war, anyway, when a lodge man on parade can wear more gorgeous uniform.

Georges Carpentier has signed up to fight Tommy Gibbons at Michigan City, Indiana, on May 31st.

David Martin and family left by last night's train for Pittsburg, Pa., where they will reside for a time.

Mr. and Mrs. Bert Sessler returned the early part of the week from a visit to Calgary.

Mrs. Knappan and Miss Lillian went to Lethbridge on Tuesday, where the latter resumes her studies at the Garbutt Business College.

Fred Martin called at our office Monday afternoon and excitedly remarked: "Gosh, I'm glad this rain came. I planted two lots of macaroni on Saturday."

Doukkoher properties at Brilliant, B.C., will be saddled with an extra assessment this year to replace the schools recently destroyed by fire in their community.

In a picture of two ladies received from California the early part of the week, we are unable to decide just which is our wife. We have written back for a head-on view.

There was never a better opportunity offered the people of Alberta for the operation of private stills than that under the new liquor control act, which already suggests prohibitive prices for beers and liquors.

After having spent a few weeks with her uncle and aunt, Mr. and Mrs. Joe Morgan, at Lundbreck, Miss Morgan, of Creston, is visiting for a few days with her uncle and aunt, here, Mr. and Mrs. Evan Morgan.

Mr. Dillingham, of Innisfail, was convicted of slander in the supreme court last week end and was fined \$100 and costs by Judge Walsh. Action had been taken for \$8000 damages.

The marriage of Miss Davidson, daughter of Mr. David Davidson, to Mr. J. Hume, was solemnized by the Rev. D. K. Allan at the bride's home, Coleman, on Monday evening. A large concourse of citizens, including the town band, turned out late in the evening to chivari the popular young couple.

The changes being made to the local lodge hall will likely be completed in the course of another two weeks, affording a considerably larger lodge room, larger regalia room, ante rooms and kitchen, as well as an indoor stairway. The main hall "is being floored with hardwood. The electrical arrangements will be somewhat changed, affording more equal distribution of light, and all wiring will be enclosed in conduit as required for fire protection and insurance purposes. When the work is completed, Blairmore will have a hall for lodge purposes equal to anything outside of Calgary. At present no less than seven fraternal societies meet there—the I.O.O.F., with Encampment and Rebekah auxiliaries; the A. F. & A. M., with Eastern Star sisters' lodge; and the Knights of Pythias and Pythian Sisters. Of late, the hall has not been large enough to accommodate what drives comfortably, and the addition will afford space for about twenty extra tables.

Lower Car Rates

Take advantage of them. Insure that car of yours against Fire or Theft in strong stock companies.

No Doubt About The Class

of the new spring clothes we are making. For we cater to men who know style and could not be camouflaged by any lack number fashion. Come in and look over the new cloths and style plates. They are the real things in men's clothing fashions this year and we do the tailoring so the smartness is carried out to perfection.

J. E. UPTON.
